KEEPING TRADITION ALIVE

in the spanish period
tattooing was deemed inappropriate and so the act was banned.

in contemporary times
tattooing is seen as a
modern class or status
symbol. It is associated with
the body and the world
around it. It is a way to
express one's identity.

in the american era
kalinga tribes and their
headhunting were painted
as barbaric & tattoos
were associated with
criminals.

batok art utilized
a mixture of charcoal and water. Instead
of a needle, the thorn of a
plant serves as the needle, which
is made from a plant called "batok".
